Fundamentals of Financial Planning 2018

Authors: M Botha, L Rossini, W Geach, B Goodall, J Palframan, L Rossini, L du Preez, P Rabenowitz

This publication has been written as an introductory text for financial planners and undergraduate students of financial planning. It is also an excellent reference work for anyone embarking on a career in financial planning as it covers all aspects of financial planning.

Why you can't do without it

- An essential introductory text and reference. Covers all aspects of financial planning in one volume.
- A prescribed text for financial planning and wealth management certificates at NQF Level 5 and 6.
- Updated annually. All chapters have been reviewed and updated to include new examples and insight from our team of authors.

We recommend that you also purchase *Financial Calculations*. This book contains a collection of calculations that financial advisers encounter on a daily basis – examples as well as worksheets in A4 format so that the user can actually work through them.
